

LAMISIL

ANTIFUNGAL FOR THE FUNGUS ON YOUR NAILS

HOW TO USE LAMISIL

For the fungus on your nails:

1. Get your blood drawn
2. Call the office to see if the labs were OK. If they are OK, get your prescription filled. Note: the cheapest place to get the Lamisil is at Walmart
3. Start Lamisil 250mg (1 tablet every day)

AFTER SIX WEEKS

1. Get your blood drawn again. Call our office Call (559) 472-SKIN to let us know you have done this.
2. If the blood work is normal, get a refill of the medication.

Remember that it will take nine months for the toenail to grow out and see that there is no fungus. Be patient.
