

CAUTERY

CAUTERY AFTER CARE INSTRUCTIONS

You have been treated with liquid nitrogen or electrocautery. These areas that were treated will be slightly tender for the next few days.

It is important to:

- Wash the areas every day
- Apply Vaseline ointment twice a day
- Wear a Band-Aid to keep them clean and keep the ointment on the area.

WHEN TO CALL THE DOCTOR

If you experience any of the following symptoms, please call our office at (559) 472-SKIN

- If the area doesn't appear to be healing
- If the area has any pus
- If the area begins to drain
- If you experience a fever
